Community Healthcare Management System

Placing the Individual first and at the center of their healthcare community

Better Care for Individuals

Lower Cost thru Care Improvements

A Healthier Population

CHMS is creating a new healthcare paradigm

Data Analytics for HCC Analysis and MACRA MIPS/ APMs Preparedness

The Products and Solutions are driven by 3 philosophies **Innovation, Function and Community** to increase the “Quality of Healthcare” thru *Communication* and “Lower the Costs” of Healthcare thru *Population Health Management*

Designed by Healthcare Professionals and built by Internet Industry Veterans

About Us:

The FEMR Group was founded to deliver HIPAA-compliant, enterprise-grade, software-driven cloud solutions for the healthcare industry, placing the individual first, and at the center of their healthcare community.

Designed by healthcare professionals, and built by Internet Industry veterans who are driven by Innovation, Function and Community, FEMR Group seeks to increase the “Quality of Healthcare” through Communications and “Lower the Costs” of healthcare through Management and Accountability

Borne out of an “Office without Walls Medical Practice Model”, Phillips Consulting Services, “Functional Practice Model” and veteran technology professionals from Hewlett Packard, Cisco Systems and other Silicon Valley technology companies who have developed an architectural approach to innovation and business process transformation with an emphasis on placing “function” back into the healthcare systems.

At the center of FEMR’s platform is the Community Healthcare Management System (CHMS™), a re-imagined approach in the healthcare industry assisting the transformation of Fee for Service to Alternative Payment Models to drive valuable healthcare exchanges.
